

SmartCoin (SMT) – Whitepaper

Bridging Blockchain & Commodities
Version: 1.0 Date: June 2025

1. Introduction

SmartCoin (SMT) is a BEP-20 utility token built on the BNB Smart Chain. It is designed to connect the digital asset world with the real-world commodities sector, creating a bridge between blockchain-based transactions and tangible economic value.

With a focus on accessibility, transparency, and multi-platform availability, SMT aims to provide a stable foundation for commodity-driven blockchain utility.

2. Vision & Purpose

The purpose of SmartCoin is to empower individuals and businesses to interact with commodity-related assets through blockchain.

By combining decentralized finance (DeFi) with commodity logic, SMT seeks to become a go-to token for real-world use cases such as resource-linked settlements, digital trading, and future integrations with mining and logistics systems.
